

Retraction notice

Published online: 17 July 2019

Journal of **Comparative
Effectiveness Research**

The following article has been retracted from *Journal of Comparative Effectiveness Research* as it did not meet the ethical standards of the Journal and the Universities, owing to the use of an invalidated MMAS-8 scale:

Jande M, Katabalo DM, Sravanam P, Marwa C, Madlan B, Burger J, Godman B, Oluca M, Masele A, Mwita S. Patient-related beliefs and adherence toward their medications among the adult hypertensive outpatients in Tanzania. *J. Comp. Eff. Res.* 6(3), 185–193 (2017).

The authors and editors of the *Journal of Comparative Effectiveness Research* regret any negative consequences this publication might have caused in the scientific and medical communities.
