

Corrigendum

Following publication of the Research Article by Giulia Torregiani, Claudia Claroni, Marco Covotta, Alessia Naccarato, Marco Canfora, Diana Giannarelli, Gian L Grazi, Susanna Tribuzi & Ester Forastiere, titled ‘Impact of a goal-directed fluid therapy on length of hospital stay and costs of hepatobiliarypancreatic surgery: a prospective observational study’, which appeared in the December 2018 issue of the *Journal of Comparative Effectiveness Research* (*J. Comp. Eff. Res.* 7[12], 1171–1179 [2018]; doi: 10.2217/cer-2018-0041), it has been brought to our attention that there was an error in the text.

The original text was printed as:

“The application of a GDFT algorithm did not reduced the total length of hospital stay and the global costs, which were mainly influenced by the number of complications.”

The corrected text now reads:

“The application of a GDFT algorithm did not reduce the total length of hospital stay and the global costs, which were mainly influenced by the number of complications.”

The authors and editors of the *Journal of Comparative Effectiveness Research* would like to sincerely apologise for any confusion or inconvenience this may have caused our readers.
