

Corrigendum

The Research Article by H Vroman *et al.*, 'Continuous vital sign monitoring in patients after elective abdominal surgery: a retrospective study on clinical outcomes and costs', which appeared in the February 2023 issue of the *Journal of Comparative Effectiveness Research* 12(2), e220176 (2023), was published with an incorrect value in the abstract.

The text appeared as: The intervention was associated with a lower odds of ICU admission (odds ratio: 0.422; $p = 0.007$) and ICU related costs (odds ratio: -662.4; $p = 0.083$).

The correct text is: The intervention was associated with a lower odds of ICU admission (odds ratio: 0.422; $p = 0.007$) and ICU related costs (coefficient: -622.6; $p = 0.083$).

This has now been corrected.

The authors and editors of the *Journal of Comparative Effectiveness Research* would like to sincerely apologize for any inconvenience or confusion this may have caused our readers.
